10. Seat Belt Reminder System

The seat belt reminder system and method have been changed on Thai automatic transmission model. For details, refer to page 35.

11. Wireless Door Lock Remote Control System

The maximum number of keys that can be registered in the wireless door control receiver has been increased from 4 to 6, on Australian and Thai models and some general country models (for New Zealand package).

12. Wire Harness

A specific wire harness for installing the rear clearance sonar system and engine immobilizer system is provided as standard on Malaysian models.
