INTRODUCTION

OUTLINE OF NEW FEATURES

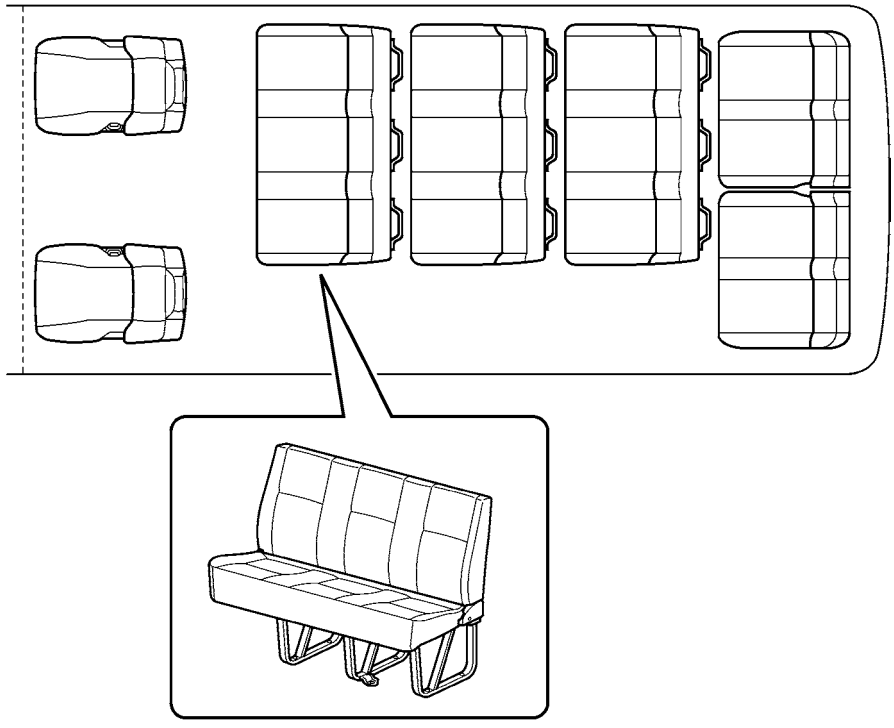

1. Glass Roof Window for Emergency Escapes

- The DX grade super long wheel base model for South Africa is equipped with a glass roof window for emergency escape and a hammer to break it to allow occupants to escape in an emergency.

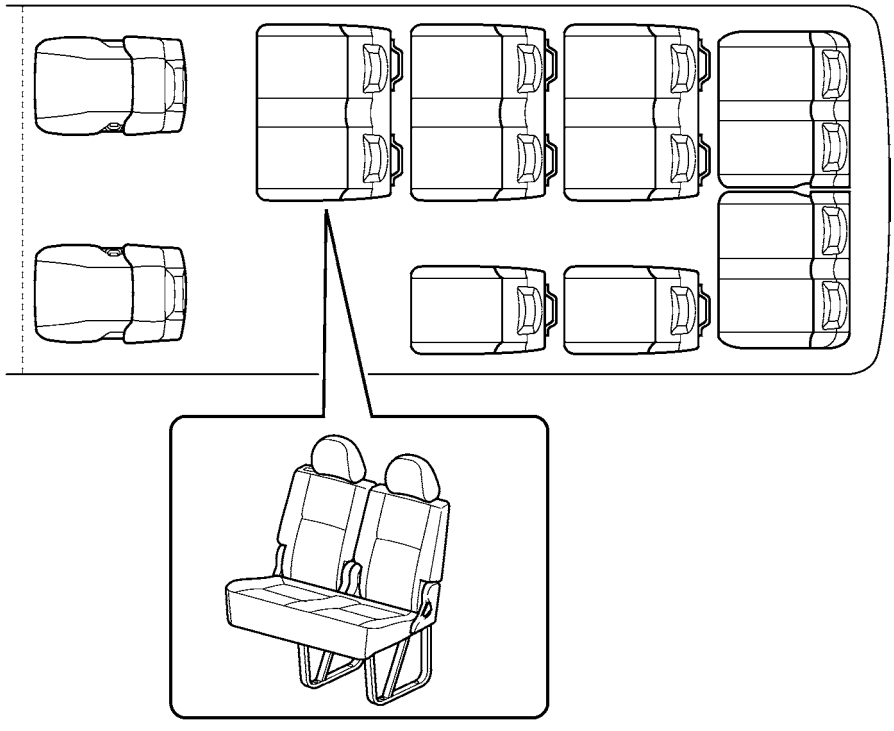

2. Seat

- The following changes have been made to the seats for the DX grade super long wheel base models, TRH223R-LEMDKN, for South Africa.
- The seat material has been changed from fabric to polyvinyl chloride.
- A 15 (2+3+3+3+4) seat layout is used instead of conventional 14 (2+2+3+3+4) seat layout. The headrest provided on the rear seats are no longer used, instead, high back seats are used. The reclining function has been discontinued.
