NEW FEATURES

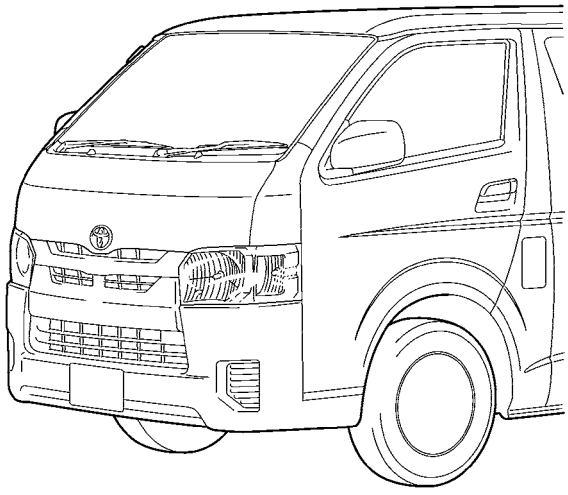

EXTERIOR

■ FRONT DESIGN

- The designs of the radiator grille upper, radiator grille lower, front bumper cover, and headlight assemblies have been changed, resulting in a brand new appearance.
- By adopting LED type headlight assemblies, a high-class appearance has been provided with its novel design on the 2 projectors, which is connected to the low beam light.*
- Along with the change of the shape of the front bumper covers, the fog light mounting brackets have been changed.
