NEW FEATURES

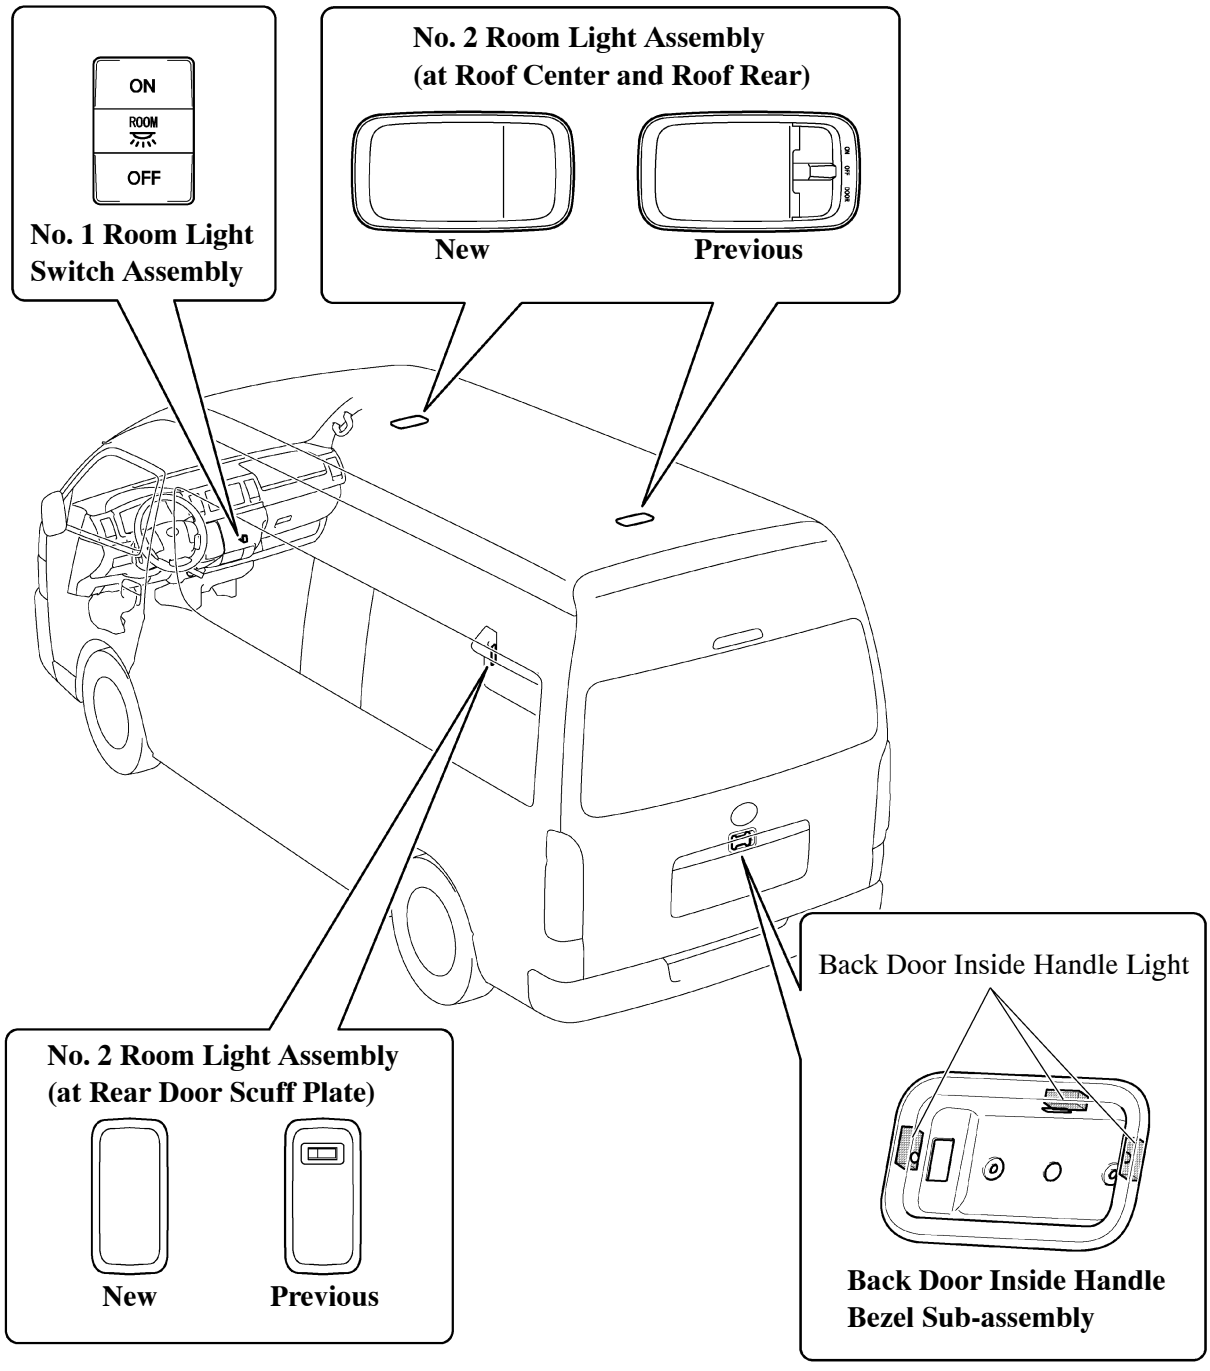

LIGHTING

■ DESCRIPTION

Interior Light

- A back door inside handle lights (LED×3) for the back door inside handle assembly has been provided on the back door inside handle bezel sub-assembly of the Morocco package commuters. The back door inside handle lights will be turned on/off together with the No. 1 room light switch assembly.
- For Morocco package commuters, each light switch of the No. 2 room light assembly (at roof center and roof rear) and No. 2 room light assembly (at rear door scuff plate) has been abolished. Along with this, each room light* on the vehicle rear has been able to turn on/off only with the No. 1 room light switch assembly.

*: No. 2 room light assembly (at roof center and roof rear), No. 2 room light assembly (at rear door scuff plate), and back door inside handle lights.
