BODY STRUCTURE

■ NO. 2 ENGINE UNDER COVER

- No. 2 engine under cover was provided for vehicles equipped with the 1GD-FTV engine. The No. 2 engine under cover protects the urea injector set from flying pebbles and fragments from the road surface.
- The No. 2 engine under cover of some vehicles equipped with the 1KD-FTV and 2KD-FTV engine was changed to the same No. 2 engine under cover used for vehicles equipped with the 1GD-FTV engine.
