REAR SEAT ENTERTAINMENT SYSTEM

■ DESCRIPTION

The RSES (Rear Seat Entertainment System) displays visual images from the DVD player on the rear display. The RSES also outputs audio sound via the speakers or headphones. The features of this system are as follows:

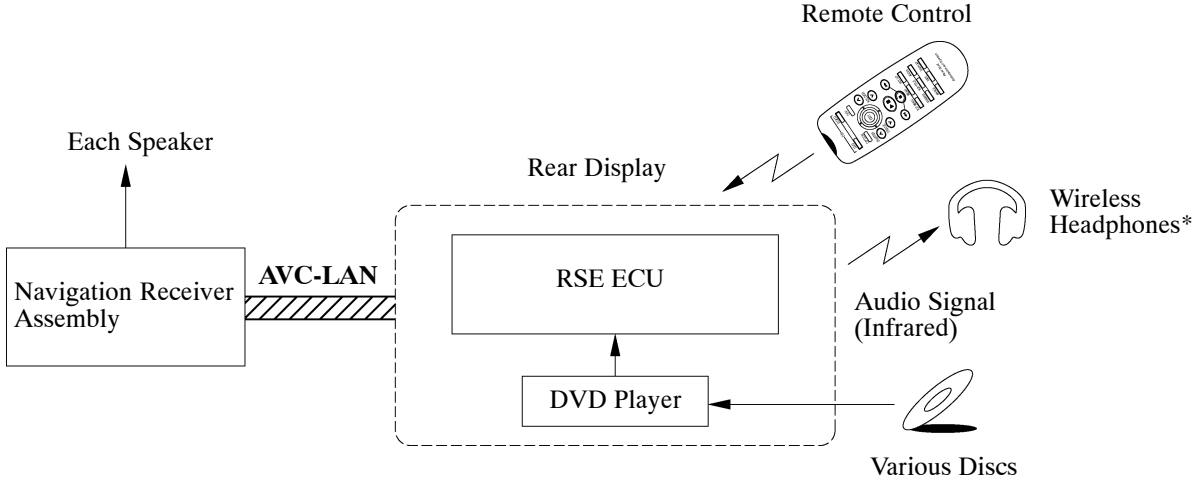

- A 9.0-inch rear display is used and the maximum opening angle of the rear display is 125°.
- Discs containing MP3 (MPEG audio layer-3) file can be played.
- Discs with the marks shown below can be played on the DVD player.

06J0BE195C

- The RSES is controlled by the RSE ECU built-into the rear display.
- The RSES is available on the Grande grade models for Australia with navigation with AV system as set optional equipment.
