# GLASS HATCH OPENER SYSTEM

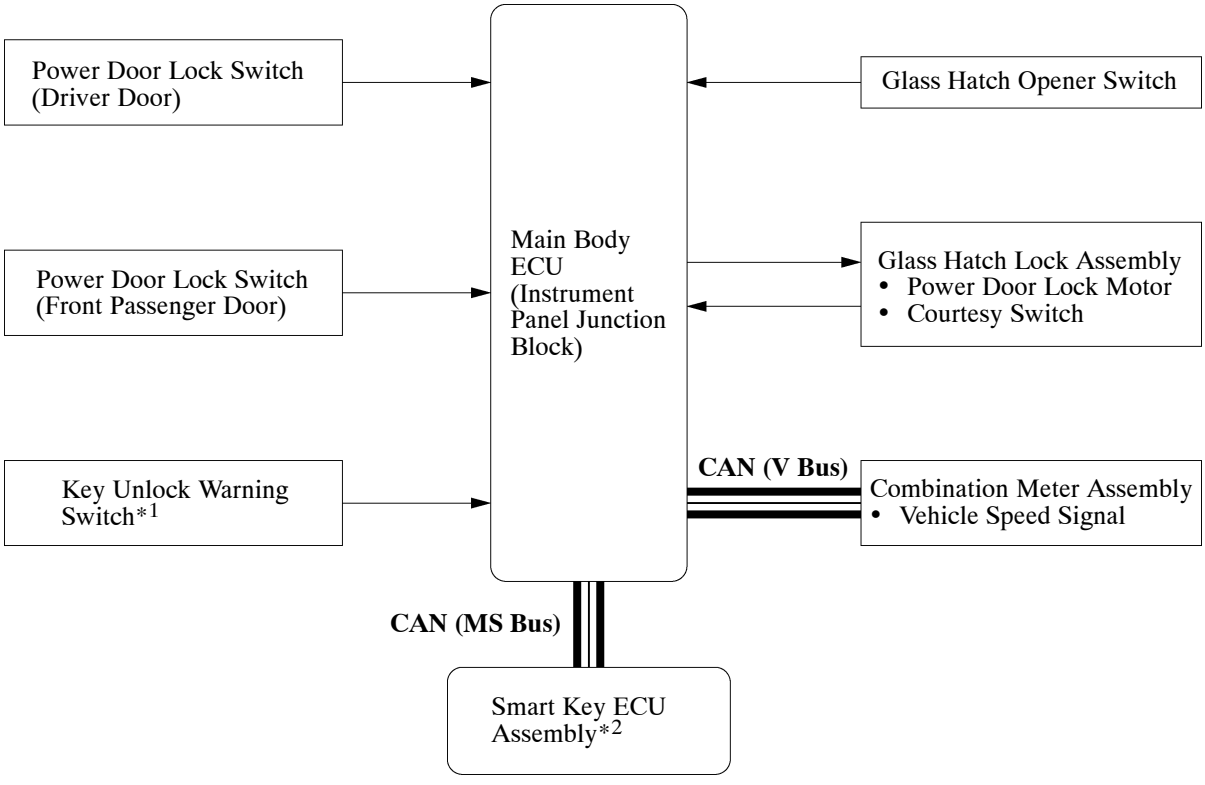

## ■ DESCRIPTION

The glass hatch opener system enables the back door glass to be opened when the glass hatch opener switch is pressed.

- This system is standard equipment on except N grade.
- This system activates when the following two conditions are met:
  - Vehicle speed is less than 3 mph (5 km/h).
  - An unlock signal is input into the Main Body ECU*1 (Instrument Panel Junction Block) or Smart Key ECU Assembly*2.

*1: Models without Smart Key System (Except Limited Grade)
*2: Models with Smart Key System (Limited Grade only)
