Rear View Monitor System

To assist the driver in parking the vehicle by monitoring the area behind the vehicle, the rear view monitor system has a television camera mounted on the back door to display a view of the area behind the vehicle on the display.

Bluetooth Hands-free System

The Bluetooth hands-free system allows the driver to make or receive a call without taking their hands off the steering wheel when the system is linked with a Bluetooth-compatible cellular phone.

- The Bluetooth hands-free system is integrated with the radio and player with display and the audio head unit in the premium audio system.
