■ ILLUMINATED ENTRY SYSTEM

1. General

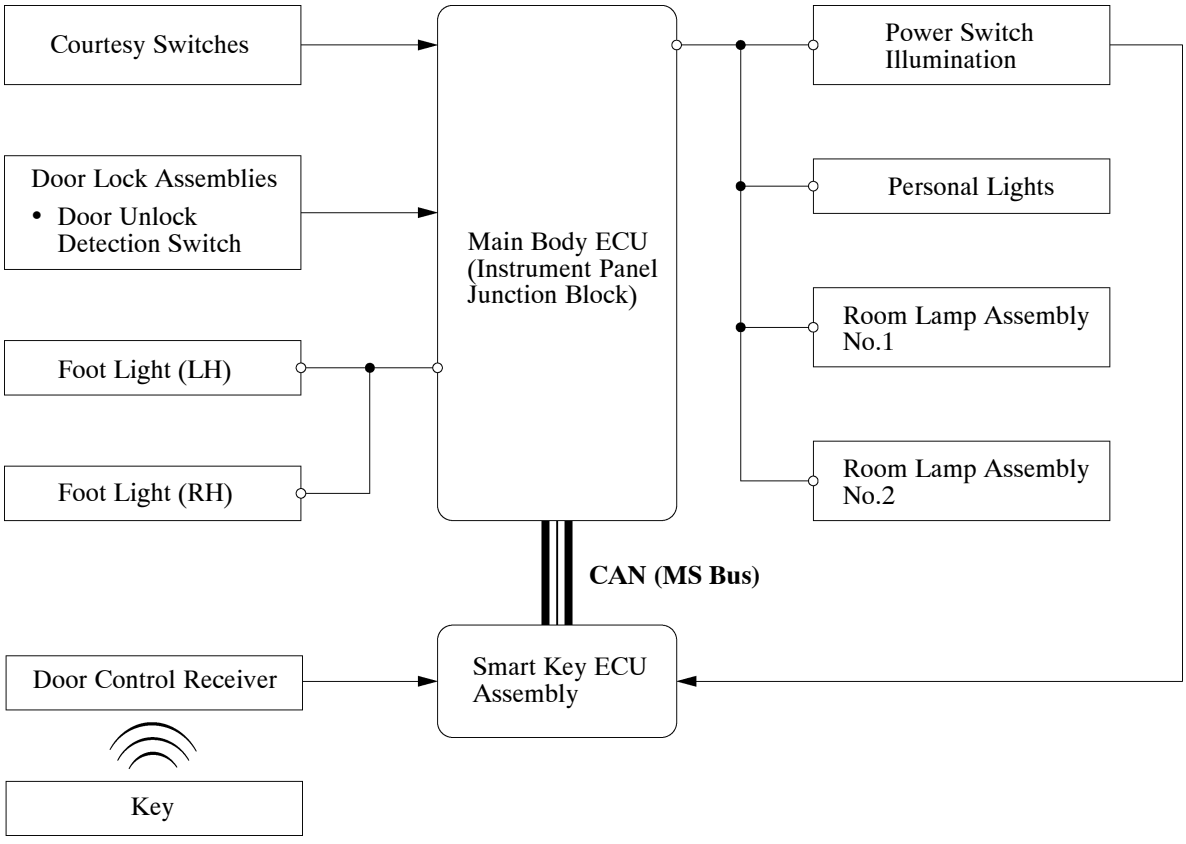

The illuminated entry system has the following control functions:

Control	Outline	Lights that Operate
Actuation Area-linked	When the key enters any actuation area around the doors, the lights that operate turn on.	• Foot Lights • Power Switch Illumination • Personal Lights • Room Lamps
Key-linked	When any door is unlocked using the door control transmitter, the lights that operate turn on.	• Power Switch Illumination • Personal Lights • Room Lamps • Foot Lights
Door Open-linked	When any door is opened, the lights that operate turn on.	• Power Switch Illumination • Personal Lights • Room Lamps • Foot Lights
Door Close-linked	When all doors are closed, the lights that operate turn off*1.	
Door Lock-linked	When all doors are locked, the lights that operate turn off*2.	
Power Switch-linked	When the power source mode is changed from OFF to ACC or IG-ON, the lights that operate turn off*2.	
	When the power source mode is changed from IG-ON to OFF, the lights that operate turn on.	• Power Switch Illumination • Personal Lights • Room Lamps
Battery Saving	When no changes occur in the condition of the doors for 20 minutes, the lights that operate turn off.	• Power Switch Illumination • Personal Lights • Room Lamps • Foot Lights

*1: Illuminates for approximately 15 seconds, fades out over approximately 3 seconds and goes off. Illumination time can be selected from 15, 30, and 7.5 seconds using the customize function. For details, see page BE-18.

*2: Starts to fade out immediately (fades out over approximately 3 seconds) and goes off.
