# THEFT DETERRENT SYSTEM

## ■ DESCRIPTION

The theft deterrent system can sound an alarm when somebody attempts to forcibly enter the vehicle, open the engine hood, unlock any door without the key, or when the auxiliary battery terminals are removed and reconnected.

- The theft deterrent system is available as optional equipment for all models.
- The system consists of door lock control system parts, smart key system parts, a security horn, and a security indicator light.
- The system is controlled by the smart key ECU assembly.
- The warning specifications of this system are listed below.
