

WIRELESS DOOR LOCK REMOTE CONTROL SYSTEM

■ DESCRIPTION

- The Hilux has a wireless door lock remote control system with the following equipments.

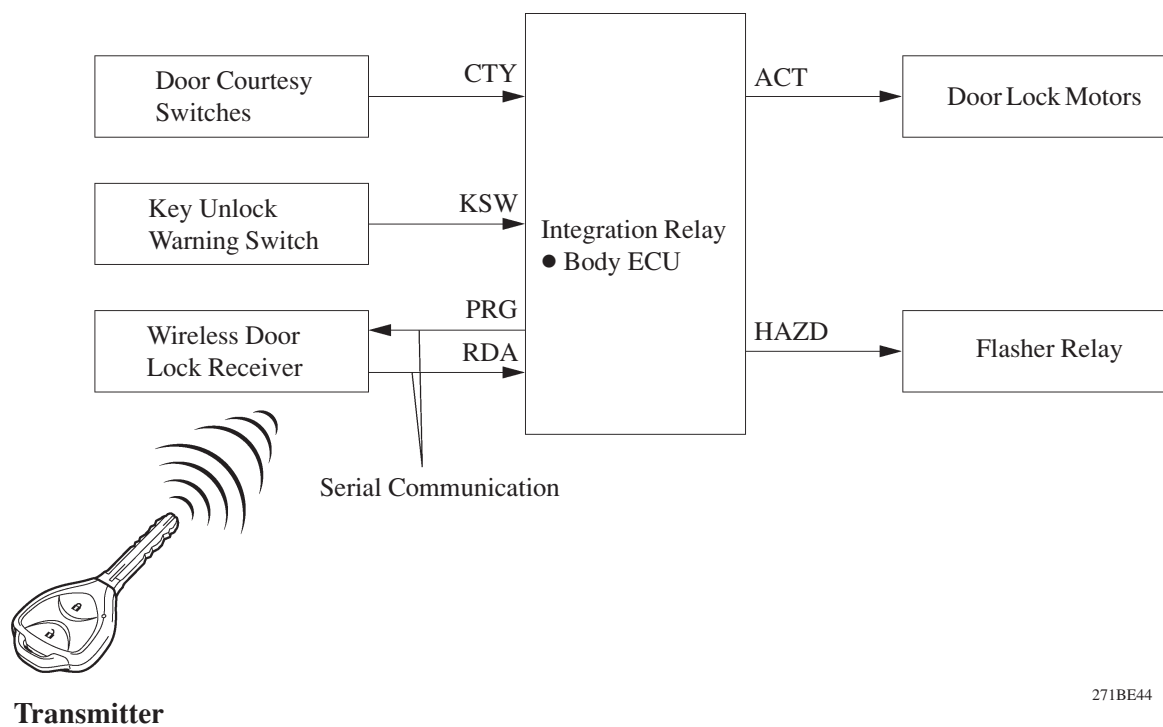

Destination		Thailand	Australia	Philippines	General Countries	Central and South America	Malaysia
Grade	SR	Standard* ¹	Standard	Standard	—	Standard	—
	DLX	—	Option* ²	—	—	Standard* ¹	—

- This system is a convenient system for locking and unlocking all the doors, at a distance.
- A key integrated, two buttons type or three buttons type*¹ transmitter is used.
- The functions of the wireless door lock remote control system on the Hilux differ between the models with and without the theft deterrent system.
- On the model with the theft deterrent system, the wireless door control receiver is integrated in the theft deterrent ECU.
- The wireless door lock receiver performs the code identification process and the integration relay (the body ECU) effect the door lock control.
- On the model without the theft deterrent system, a serial data link is provided for establishing communication between the wireless door control receiver and the integration relay.

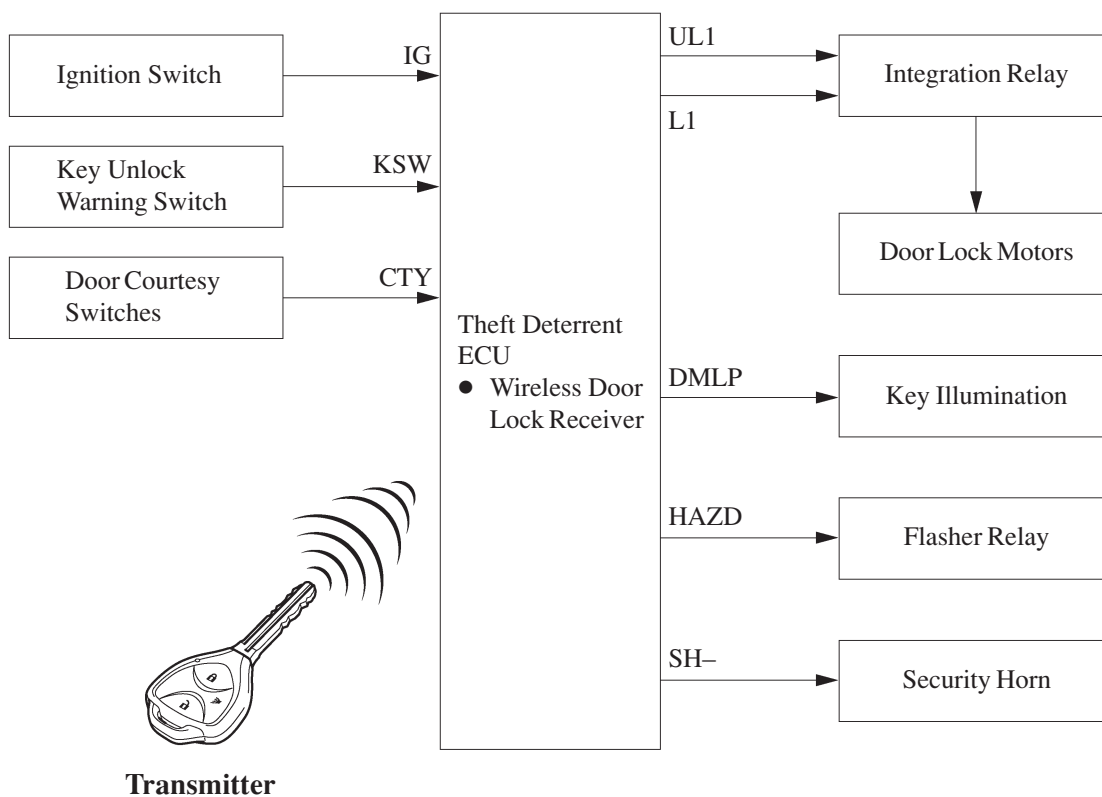

*¹: Only for Models with The Theft deterrent system

*²: Except 2TR-FE Engine Model
