INTERIOR

Instrument Panel

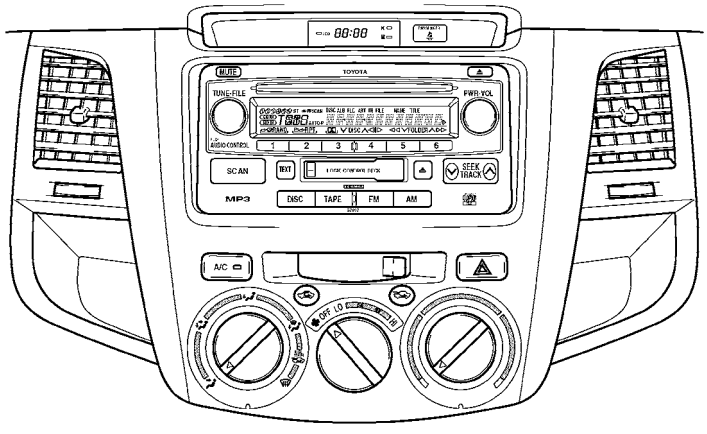

- With a high quality feeling and long-lasting design as the main theme, a design which combines solid quality with a spacious interior space and functionality has been achieved.
- The layout of the combination meter, register, heater control panel and switches has been designed in pursuit of operability and ready visibility.

271MO36

Center Cluster

A center cluster design that includes an audio head unit, a clock, and a heater control panel is used.
