ACCESSORIES

■ DESCRIPTION

The new Hilux has the following systems:

System	Outline
Power Window System	As in the previous model, “one-touch operation”, in which the driver’s door window can be fully opened by pressing the power window switch once, is offered. The basic construction and operation are the same as in the previous model.
Door Lock Control System	This system has “key-linked lock and unlock” and “door lock control switch” functions. All doors can be locked and unlocked simultaneously by operation of the driver’s door key or door lock control switch. The basic construction and operation are the same as in the previous model.
Seat Heater	The seat heater system improves the comfort for the driver and the front passenger in a cold weather by heating the surface of the seats.
SRS Airbag	The SRS (Supplemental Restraint System) airbag is provided for the driver and front passenger. SRS airbag has been designed to help lessen the shock to the head and chest of the driver and front passenger in a frontal impact in the event of a collision. 1 sensor type airbag system is used in which the detection of deceleration during a collision as well as control of the airbag system is accomplished by the airbag sensor assembly. For details, see the next page.
Outside Rear View Mirror	An electrical remote control type outside rear view mirror that enables mirror angle to be adjusted by a switch operation is provided.
Headlight Cleaner	The headlight cleaner sprays windshield washer fluid onto the headlights to clean the lens.
Key Reminder System	When the driver’s door is opened with the ignition key in the ACC or LOCK position, this system sounds a buzzer to warn the driver that the ignition key has not been removed. The basic construction and operation are the same as in the previous model.
Seat Belt Warning	If the driver turns ON the ignition switch without wearing the seat belt, the indicator light in the combination meter flashes, and the warning buzzer sounds to inform the driver that the seat belt is not being worn. For details, see page 158.
