INTERIOR

■ TILT STEERING

The steplessly tilt steering is standard equipment on the double cab SR grade model for G.C.C. Countries and optional equipment on the other models.

140CH33

■ POWER WINDOW SYSTEM

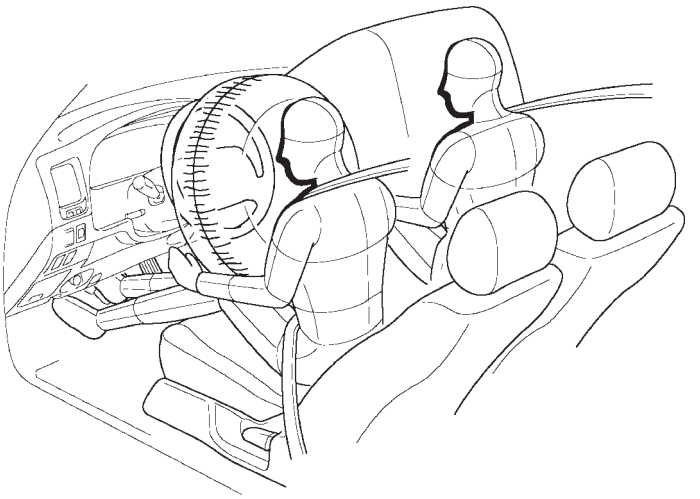

The power window system is available as optional equipment on some models. The power window system includes a one-touch down function which automatically opens the driver's side window fully.

■ DOOR LOCK CONTROL SYSTEM

The door lock control system is optional equipment on some models.
The door lock control system has a door key interlinked function. By locking or unlocking the driver's door with the key, the door key interlinked function automatically locks or unlocks the other door at the same time.

■ SRS AIRBAG

- SRS Airbags for driver and passenger are optional equipment on the models for Europe and Australia.
- An airbag for driver or airbags for driver and passenger are optional equipment on the models for G.C.C. Countries.
