HILUX

OUTLINE OF NEW FEATURES

The following changes are made for the new Hilux.

1. All Engines

The TOYOTA genuine Super Long Life Coolant (SLLC) has been adopted. As result, the maintenance interval has been extended.

2. 1RZ and 2RZ Engines

The starter of the 1RZ and 2RZ engine models for General Countries and the G.C.C. (Gulf Cooperation Council) countries has been changed from R1.0 kW to RA1.2 kW in order to improve startability.

3. 3RZ-FE Engine

To comply with the STEP2 exhaust emission requirements, a TWC (Three-Way Catalytic Converter) and an oxygen sensor have been added to the exhaust system of the 3RZ-FE engine model for Australia and New Zealand.

4. Manual Headlight Leveling System

A manual headlight leveling system has been newly provided as standard equipment on all models for Saudi Arabia. For detail, see page 320.
