

A circuit diagram showing a battery connected to a wire. The battery is represented by two parallel lines of unequal length, with the longer line on the left. A wire extends from the top of the battery, goes up, then right, then down, forming a rectangular loop. The wire is connected to the positive terminal of the battery. The negative terminal of the battery is connected to the bottom of the wire. The word "Battery" is written to the right of the battery symbol.
