

2003 MY CAN Communication Monitor (P0860, P0863)

To return to monitor description, see page [Sm-7](#).

MONITOR STRATEGY

Required sensors/Components	Main	Transmission control ECU and ECM
	Sub	None
Frequency of operation	Continuous	
Duration	None	
MIL operation	Immediate	
Sequence of operation	None	

TYPICAL ENABLING CONDITIONS

Item	Specification	
	Minimum	Maximum
Time after ignition switch ON (only P0860)	5 sec.	–

TYPICAL MALFUNCTION THRESHOLDS

DTC	Detection Criteria	Threshold
P0860	Communication to/from ECM	No communication x 7 times
P0863	No communication with ECM	No communication
