

2001 to 2003 MY Master Pressure Sensor Monitor (P0847, P0848, P1860)

To return to monitor description, see page [Sm-10](#).

MONITOR STRATEGY

Required sensors/Components	Main	Master pressure sensor
	Sub	None
Frequency of operation	Continuous	
Duration	None	
MIL operation	Immediate	
Sequence of operation	None	

TYPICAL ENABLING CONDITIONS

None

TYPICAL MALFUNCTION THRESHOLDS

Detection Criteria	Threshold
Master pressure sensor voltage	Less than 0.25 V
	4.75 V or more

COMPONENT OPERATING RANGE

Parameter	Standard Value
Master pressure sensor voltage	Between 0.4 V and 4.3 V
