FAST MOVING

PARTS CATALOG & BUYERS GUIDE

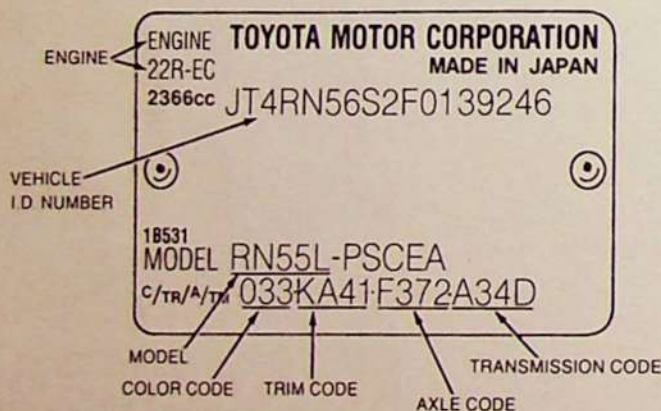

Where to Find the Necessary Information.

To determine the correct part number needed, it may be necessary to know the engine number, production date and model number.

The production date is printed on an identification plate or label attached to the doorjamb of each vehicle.

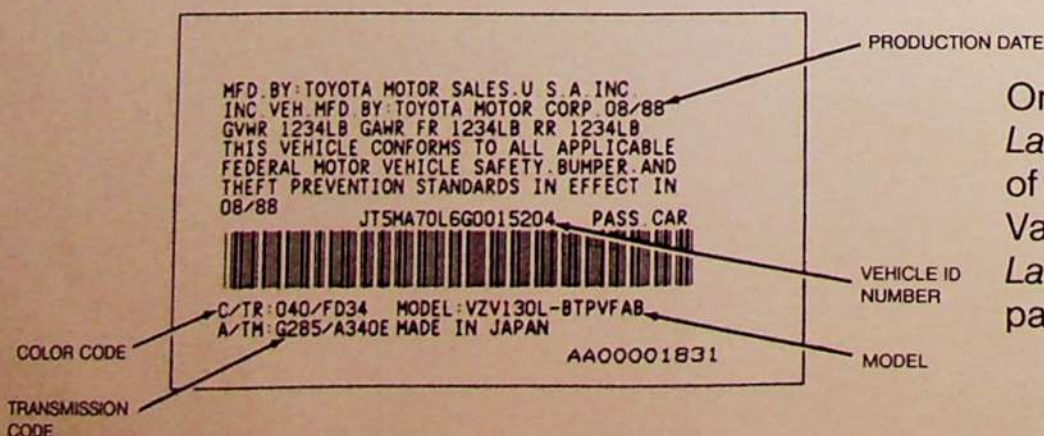

The model number and engine number can be found on the identification plate or label located as noted below.

LOCATION OF VEHICLE IDENTIFICATION INFORMATION FOR VEHICLES PRIOR TO 1989 (PLATE)

On Passenger Cars, Trucks and Land Cruisers, the I.D. Plate is located on or adjacent to the firewall within the engine compartment. On Vans, the Plate is located on the body, under a carpet flap directly below the front of the front passenger seat.

FOR VEHICLES 1989 TO CURRENT (LABEL)

On Passenger Cars, the I.D. Label is located on the inside of the driver's door. On Trucks, Vans and Land Cruisers, the Label is located on the lower part of the driver's door pillar.

HOW TO USE FAST MOVING PARTS CATALOG

WHOLESALE EDITION

FAST MOVING PARTS CATALOG SECTION

1. This Fast Moving Parts Catalog is organized by VEHICLE LINE.
To use this catalog, locate the appropriate VEHICLE, then the PART FAMILY for the part you need.
2. The following VEHICLE LINES are covered in this book:
 - Camry • Corona • Paseo • T100
 - Celica • Cressida • Previa • Tercel
 - Corolla • Land Cruiser • Starlet • Truck/4Runner
 - Corolla FX • MR2 • Supra • Van
3. The following PART FAMILIES are included in each VEHICLE LINE.
 - BELTS
 - BRAKES, BEARINGS & SEALS
 - CLUTCH & CLUTCH HYDRAULICS
 - ELECTRICAL
 - ENGINE & A/C PARTS
 - EXHAUST
 - FILTERS
 - SUSPENSION
 - MISCELLANEOUS PRODUCT CHARTS
4. Within each VEHICLE LINE, Products are organized by PART FAMILY, then specific Part. The vehicle MODEL NUMBERS are listed chronologically by starting PRODUCTION DATE.
 - MODEL NUMBER information can be found on the VEHICLE IDENTIFICATION PLATE OR LABEL at the locations noted on the inside front cover of this catalog.
 - PRODUCTION DATE information can be found on the PLATE or LABEL attached to the DOOR or DOOR PILLAR of each vehicle. The PRODUCTION DATE is designated by a 4 digit number, with the YEAR listed FIRST and MONTH listed SECOND, i.e., 8301 means year 1983, month 1 (January).
5. All part numbers and applications are as of August 31, 1992, based on information available at time of printing, and are subject to change without notice. Format may vary where necessary.
6. The following is a generalized sample from the catalog.
The actual format may vary slightly by product.

BUYERS GUIDE SECTION

1. This section is designed to assist you in determining the part numbers to stock by identifying vehicle applicability.
2. The Buyer's Guide is organized alphabetically by Part Name then by Part Number sequence. First turn to the appropriate Part Name.
3. Information consists of Part Name, Inventory Class Code, Part Number, Vehicle, Model, Production Dates and Applicable Engine.
4. The following is a sample from the Buyer's Guide.

AIR FILTERS

PART NUMBER	INV. CLASS	VEHICLE	MODEL	PRODUCTION MODEL	ENGINE
17801-70020	A	SUPRA	MA70	8601-	7MGE

* Refer to Toyota Service Bulletin Volume 9, Number 012, Reference Transmission and Clutch, dated 5-20-88 for additional ordering information. We recommend that you stock the additional parts required for interchangeability listed in the TSB to reduce vehicle downtime. You will not know which maincase is supplied when ordering the Reman. ATM.

** Refer to Toyota Service Bulletin Volume 9, Number 013, Reference Transmission and Clutch, dated 8-12-88 for additional ordering information. We recommend that you stock the additional parts required for interchangeability listed in the TSB to reduce vehicle downtime. You will not know which maincase is supplied when ordering the Reman. ATM.

IMPORTANT!!

Refer the installer of an ATM to the following Toyota Service Bulletins for CRITICAL information:

- Service Bulletin Volume 10, Transmission and Clutch, Number 016 — Torque Converter Mounting Bolts
- Service Bulletin Volume 10, Transmission and Clutch, Number 006 — Transmission Cooler Flushing

NOTES:

- It is advisable to check the size of the battery installed in the vehicle to determine the proper replacement battery.
- BCI# - Battery Council international number.
- Vehicle equipped with "ESP System": Use adaptor kit P/N 00019-20002.

MISCELLANEOUS FILTERS-AIR

Let's Clear The Air

Genuine Toyota air filters set a clean standard for fit, durability and performance.

- Triple layered coarse/medium/fine mesh filter pattern for extra efficiency.

- Needle punched construction to hold its shape and strength.

- Non-woven for filtering that's superior to a plain paper filter.

- Molded urethane top and bottom plates resist heat, vibration, gasoline and oil while maintaining their shape, to ensure a tight seal.

FILTERS-OIL Longer Life Through Clean Living

Genuine Toyota oil filter provide superior reliability, performance and protection. And that can mean extended engine life.

■ New patented advanced technology compact oil filter*

— Improved filtering efficiency

- New high performance filter material
- Improved heat resistance and mechanical strength
- Allows size and weight reduction
- Developed for Toyota's high-tech, high performance engines, and can be used in place of some conventional filters.

Effective 9/89, the following conventional filter part numbers were replaced by the new compact filter part numbers listed:

Conventional Filter P/N	Patented Advanced Technology Compact Filter P/N
15601-13011 replaced by 90080-91058	
15601-44011 replaced by 90915-20001	

*Introduced on Toyotas beginning in 1986

HEADLAMPS AND MINIATURE BULBS

Halogens-More Than Just Bright Lights

Toyota halogen headlamps offer several advantages over the standard incandescent sealed beam headlamps our halogens directly replace.

- Halogen headlamps are whiter in color. This improvement enhances roadway, sign and pedestrian visibility.
- Halogen headlamps maintain about 90% of their initial intensity for 75% or more of their rated life. Halogen headlamps remain brighter with the corresponding advantage in safer driving.
- Halogen headlamps draw less current to achieve the equivalent light output. Electrical systems of automobiles require less work to power halogen headlamps.
- Halogen headlamps are 25% to 50% brighter when compared to lamps using equal current draw.

Toyota offers the full range of standard incandescent sealed beam or halogen headlamps to fit your Toyota car or truck.

Choosing and Installing Miniature Bulbs

Replacing automotive miniature bulbs such as tail light and directional signal bulbs is no problem. Just remove the old bulb, check the number printed on the bulb base, and replace it with a bulb with the same number. If you cannot read the number on the base, or suspect it was the wrong bulb, refer to the owner's manual or this application chart to find the right bulb.

It's really important to install the right bulb. Otherwise it can't perform it's primary duties and help keep your vehicle safe to drive. Miniature bulbs should:

- Be well made and capable of operating correctly despite the rigors of everyday driving.
- Fit correctly in the socket.
- Have filament and bulb configurations designed for the specific application.

When it's time to replace your headlamp or miniature bulbs, choose the parts with the quality and proven performance you've come to expect from your Toyota-Genuine Toyota Parts.

REMANUFACTURED PARTS CORE RETURN PROCEDURES

(REVISED 7/1/92)

A. THESE INSTRUCTIONS APPLY FOR THE FOLLOWING PRODUCT CORES:

- | | | | |
|-------------------|------------------|----------------|---------------|
| ● A/C Compressors | ● Brake Calipers | ● Clutch Discs | ● Water Pumps |
| ● Alternators | ● Clutch Covers | ● Starters | |

To assure core credit, these cores must be:

- ☐ Returned with the Core Return Credit Request (CRCR) form completely filled out.
- ☐ Complete, fully assembled, not damaged or broken.
- ☐ Removed from a Toyota U.S. market application vehicle.
- ☐ Returned in an original Genuine Toyota Remanufactured or new product box.
- ☐ When a reman product is used in a warranty repair, the yellow Toyota Warranty Parts tag (Tag: 00404-01950-01) must be completed and attached to the core; these cores will receive credit regardless of their condition. Do not hold cores for the 60 day warranty inspection - return cores ASAP.

DEALERS WILL RECEIVE CORE CREDIT, UNLESS A CORE IS INSPECTED AND CAN BE DESCRIBED UNDER ANY ONE OF THE FOLLOWING CORE REJECTION EXPLANATION CODES:

- CODE 1 – "NOT RETURNED IN AN ORIGINAL GENUINE TOYOTA REMANUFACTURED OR NEW PART BOX".** A Toyota reman or new product must be purchased before a core can be returned for credit. Please don't return cores in aftermarket boxes or plastic bags.
- CODE 2 – "DISASSEMBLED".** Toyota accepts only fully assembled cores.
- CODE 3 – "NON-TOYOTA CORE".** Examples would be a core for other than Toyota U.S. market applications or Delco Remy Alternators.
- CODE 4 – "DAMAGED/BROKEN".** Examples include dents, cracks, chips, abrasions, (water/chemical) corrosion and (fire) burned housings. Broken bleeder screws, damaged internal threads on caliper body or any wear damage on a caliper body from contact with the rotor. Clutch discs with friction material mounting area damage or rubber torsion spring damage in hub.
- CODE 5 – "INCOMPLETE/MISSING COMPONENTS".** Examples include starter without its solenoid, alternator without pulley, water pump without hub or impeller, caliper without piston, missing bolts, or clutch disc missing rubber torsion springs. Compare the core with a reman unit to make sure nothing is missing.

REMANUFACTURED PARTS CORE RETURN PROCEDURES

FOR A/C COMPRESSORS ONLY –

CODE 6 – “SEIZED” Cores will not be rejected for this reason. Please disregard this code.

CODE 7 – “MISSING SHIPPING PLATES OR NOT SECURELY ATTACHED”. The metal covers/plastic caps and their o-rings that protect the service valve mounting area were not returned mounted on the core or were not securely bolted down. These shipping plates prevent compressor contamination and protect the service valve sealing area from physical damage.

CODE 8 – “MISSING BOX INNER LINER”. Cores will not be rejected for this reason. Please disregard this code.

Any core that is rejected receives no scrap value and will not be returned. Therefore, it is your responsibility to ensure cores conform to these guidelines, prior to shipping.

CORE PART NUMBERS AND CORE VALUES

PRODUCT TYPE	CORE PART NUMBER	CORE VALUE
A/C Compressor	88320-99999-99	\$ 20.00

REMANUFACTURED PARTS CORE RETURN PROCEDURES

RETURN PROCEDURE

The minimum weight required for a core return is 200 lbs. This minimum weight is required due to freight cost considerations and cannot be altered. If you are having difficulty collecting 200 lbs. in cores, contact your District Parts Manager. Put individual boxes into larger "master cartons" for easier handling and to prevent losing cores in transit.

1. Complete **Core Return Credit Request (CRCR)** form by printing dealer code, date, dealership name, and address, preparer's name and check region box. Fill in the quantity and total weight for each type of core returned. Put the four top copies into the master carton. Mail the pink copy to your Distributor, attention Parts Manager. Keep the goldenrod copy for your records. BWD will verify core quantity, origin, and adherence to return criteria upon receipt. A copy of the form including the count results and a reason for any rejection will be returned to you.
2. Complete the **Bill of Lading (to BWD)** by printing date, dealership name, and address in the spaces provided. Indicate number of master cartons to be shipped and their total weight. Have the freight company ship prepaid and bill to Toyota Motor Distributors, care of Associated Traffic Service, as stated on the form. Any cores shipped without the prepaid Bill of Lading will be returned to the sender freight collect. Use this Bill of Lading for those cores listed above only. Do not use this form for any other purpose. Forward copies as directed on the form.
3. Fill in the dealership name and address on the top portion of the **Return Address Label (to BWD)** and affix on each master carton of cores. If shipping more than one master carton, mark them 1 of 3, 2 of 3 etc.
4. Affix the **"Contains CRCR Form"** label on the appropriate master carton to indicate the carton in which the CRCR form has been placed. Designate the number of master cartons in the shipment on the label.
5. Ship the cores to:

Toyota Motor Distributors,
Inc., C/O BWD Corporation,
235 N. Sherman, Corona, CA 91720

using any one of the following authorized freight carriers:

ABF
ANR Freight
Carolina Freight
Consolidated Freightway (CF)
Direct Delivery Svc. (So. CA)
Northwest Transport (NW)
Overnite
Preston
Roadway
St. Johnsbury
Viking
Watkins Motor Line
Yellow Freight System

REMANUFACTURED PARTS CORE RETURN PROCEDURES**B. THESE INSTRUCTIONS APPLY TO COMPUTER CORES ONLY, INCLUDING:**

- Combination Meter
- Digital Speedometer
- Digital Speedometer/Tachometer
- ECT Computer
- EFI Computer
- Fuel Gauge
- Fuel/Temperature Gauge
- Tachometer
- TCCS Computer
- Temperature Gauge

To assure core credit, all cores must be:

- ☐ Returned with the required forms completely filled out.
- ☐ Complete and fully assembled.
- ☐ Genuine Toyota parts.
- ☐ Returned in a Genuine Toyota Remanufactured box.
- ☐ When a reman computer has been used in a warranty repair, the yellow Toyota Warranty Parts tag (tag: 00404-01950-01) must be completed and attached to the core; these cores will receive credit regardless of their condition.

DEALERS WILL RECEIVE 100% CORE CREDIT, UNLESS:

- They are damaged or broken
- These conditions are present:
 - Deformity (impact damage, dents, etc.)
 - Deep scratches
 - Broken seals (any attempt to open the computer)
 - Water/chemical damage (penetration of computer by any foreign material)
 - Rusted, corroded or burned terminals

Any computer core that is rejected has no core value and will not be returned to the shipper. Therefore, it is your responsibility to ensure the cores conform.

Cores removed from vehicles involved in traffic accidents where there is obvious physical damage are not acceptable. When using a remanufactured computer for a vehicle involved in a traffic accident, charge the outright price and not the exchange price.

COMPUTER CORE PART NUMBERS AND CORE VALUES

COMPUTER	CORE PART NUMBER	CORE VALUE
Combination Meter	83291-99999-99	\$ 200.00
Digital Speedometer	83110-99999-99	100.00
Digital Speedometer/Tachometer	83110-99999-98	100.00
ECT Computer	89530-99999-99	100.00

TOYOTA
"I love what you do for me."

REMANUFACTURED PARTS CORE RETURN PROCEDURES

Core credit is given on a one-for-one purchase basis. You must return cores immediately after replacement. Do not hold for warranty inspection. There is no minimum weight or quantity required for return.

FORMS REQUIRED

PLEASE NOTE: Genuine Toyota Reman Computer products come with one each of every form you need for return. However, if additional forms are required, they can be ordered from the Material Distribution Center (MDC) free of charge.

DESCRIPTION	MATERIAL NUMBER	QUANTITY UNIT PACK	MAXIMUM ORDER QUANTITY
Digital Meter Core Information Tag	00108-00707-18	1	5
EFI/TCCS Core Information Tag	00108-00707-19	1	5
ECT Core Information Tag	00108-00707-20	1	5
Return Address Label (to NDLA)	00108-00997	1	10
Computer Core Return Credit Request (CCRCR) Form	00108-00999-U	1	20

RETURN PROCEDURE

1. Complete the Computer Core Return Credit Request (CCRCR) form by printing dealer code, date, region, dealership name, and address. Fill in the quantity of the type of core returned as well as the UPS freight charge. Use one form per core. See below for UPS freight charge reimbursement instructions. Put the top four copies into the box for return. Mail the pink copy to your Distributor, attention Parts Manager. Keep the goldenrod copy for your records. NDLA will verify core quantity, origin, and adherence to return policies upon receipt. A copy of the form including the count results and a reason for any rejections will be returned to you.
2. Prepay the UPS freight charge. To receive freight reimbursement, enter the freight charge in the space provided on the CCRCR form. You will receive freight credit with your core reimbursement. Example:

Core value	\$100.00
Freight Charge	1.70
Total credit	\$101.70

3. Completely fill out the Core Information Tag and place in the remanufactured computer box.
4. Put the core in the anti-static plastic bag which came with the computer. Remove the Return Address Label (to NDLA) from the box. Put the bagged core in the box and tape securely.
5. Fill in your dealership name and address on the top portion of the Return Address Label and affix to each box.
6. Ship via UPS to: Toyota Motor Distributors, Inc., C/O Nippondenso of Los Angeles, Inc., 3900 Via Oro Ave., Long Beach, CA 90810

Important! — Computer cores are very delicate and must not be returned with non-computer cores.

REMANUFACTURED PARTS CORE RETURN PROCEDURES

C. THESE INSTRUCTIONS APPLY TO AUTOMATIC TRANSMISSION (ATM) CORES ONLY

To assure core credit, all cores must be:

- ☐ Returned with the required forms completely filled out.
- ☐ Genuine Toyota parts.
- ☐ Returned in the Genuine Toyota Remanufactured ATM shipping container.
- ☐ When a reman ATM has been used in a warranty repair, the yellow Toyota Warranty Parts tag (tag: 00404-01950-01) must be completed and attached to the core.

DEALERS WILL RECEIVE 100% CORE CREDIT, UNLESS:

- Missing major components (valve body, torque converter, differential assembly, transfer case, oil pump etc.).
- Externally damaged core resulting from an external force such as a vehicle accident (deformation, cracks, holes, etc.)
- ATM model not part of Reman Program.
- ATM core not from the vehicle being repaired (junk yard core, etc.).

ATM CORE PART NUMBERS AND CORE VALUES

<u>ATM TYPE</u>	<u>CORE PART NUMBER</u>	<u>CORE VALUE</u>
Front Wheel Drive 4 x 2	30510-99999-89	\$1,000.00
Front Wheel Drive 4 x 4	30510-99999-99	1,400.00
Rear Wheel Drive 4 x 2	35010-99999-89	1,000.00
Rear Wheel Drive 4 x 4	35010-99999-99	1,400.00

Core credit is given on a one-for-one purchase basis. You must return cores immediately after replacement. Do not hold for warranty inspection. There is no minimum weight or quantity required for return.

CORE PREPARATION

- ☐ Completely drain all applicable fluids from the core (e.g. transmission, differential, transfer case).
- ☐ Transfer all plastic/rubber shipping plugs from the reman ATM to the correct holes in the core.
- ☐ Secure the torque converter to the ATM case using the bracket and bolts supplied with the Reman ATM.

TOYOTA
"I love what you do for me."

REMANUFACTURED PARTS CORE RETURN PROCEDURES

RETURN THE FOLLOWING PARTS ATTACHED TO THE CORE:

- ☐ Torque converter
- ☐ Speed sensor or governor assembly
- ☐ Throttle cable and wiring harness
- ☐ Breather assembly
- ☐ Differential assembly (Front Wheel Drive models)
- ☐ Left side engine mounting bracket (Front Wheel Drive models)
- ☐ Transfer case (4 x 4 models)
- ☐ Secure the torque converter to the ATM case using the bracket and bolts supplied with the Reman ATM.

FORMS REQUIRED

PLEASE NOTE: Genuine Toyota Reman ATM products come with a special oil resistant envelope which contains all the necessary paperwork you need for return. However, if additional forms are required, they can be ordered from the Material Distribution Center (MDC) free of charge.

DESCRIPTION	MATERIAL NUMBER	QUANTITY UNIT PACK	MAXIMUM ORDER QUANTITY

Reman ATM Envelope (complete with the above forms and brochure)	00108-01080	1	5
Reman ATM Empty Envelope	00108-01080-MT	1	5
Reman ATM Warranty Brochure	00108-01090-91	1	5

RETURN PROCEDURE

1. Inspect the core for damage or missing components. Prepare the core for return.
2. Open the Reman ATM Envelope and remove all the forms.
3. Complete all sections of the Core Information/Credit Request (CICR) form. Service department information should be provided on the hard copy of the Repair Order. If the Reman ATM is sold wholesale, obtain information at the time of delivery. In the Parts Department section, fill in your dealer code and name, return date and check your region box. Determine which type of ATM core you are returning and check the appropriate box. Use only one form per core. Put the top five copies into the envelope. Mail the pink copy to your Distributor, attention Parts Manager. Keep the goldenrod copy for your records.

REMANUFACTURED PARTS CORE RETURN PROCEDURES

4. Complete the Bill of Lading (to AWTEC) form with your dealer information and insert the fourth copy into the envelope. Keep the top copy and give the remaining copies to the carrier driver. Use one of the authorized carriers (listed below) for returns. **Important!** If you are returning more than one core at any given time, please use one Bill of Lading form for these shipments. This will help save unnecessary administrative costs.
 - ABF
 - ANR Freight Systems
 - Consolidated Freightways
 - Roadway
 - Preston
 - Overnite
 - Yellow Freight System
5. Fill in your dealer name and address on the Return Address Label (to AWTEC) and affix to the top half of the shipping container.
6. Seal the envelope and, using the wire, attach the envelope to the top of the core bellhousing. Make sure the envelope and its contents will not be damaged by leaking fluid.
7. Seat the core properly and secure the top and bottom sections of the container by stretching the rubber straps and fasten the hooks.
8. Ship immediately to:
TOYOTA MOTOR DISTRIBUTORS, INC.
C/O AW Transmission Engineering, U.S.A., Inc. (AWTEC)
14920 Keel Street
Plymouth, MI 48170

Remember, the availability of Remanufactured Automatic Transmissions depends on the prompt return of your cores.

TOYOTA
"I love what you do for me."

SPARK PLUG APPLICATION CHART

Genuine Toyota Spark Plugs Outdistance The Competition

Your Toyota comes equipped with the parts you need to get the performance you want—right down to the spark plugs.

U-Groove Spark Plugs For Most Toyota Engines

Toyota's conventional U-Groove plugs provide unconventional performance.

Their patented U-Groove design creates a larger, hotter flash, so you get started faster and keep going longer.

Platinum-Tipped Plugs For High-Performance Engines

If your Toyota has a high-performance, dual overhead cam engine, you need genuine Toyota platinum-tipped spark plugs.

They're designed to take the extra heat these engines generate, and they go farther, longer - up to 60,000 miles - before needing replacement.

CAMRY

Year	Engine	Plug Type
1983-86	4 Cyl. (2SELC)	W16EXR-U11
1987-91	4 Cyl. (3SFE)	Q16R-U11
