GENUINE TOYOTA PARTS

This diagram illustrates the assembly of a fuel system component, likely a fuel line or hose. The main assembly is labeled 86300. Key components and their part numbers are as follows:

- 86396**: A small bolt or screw used to secure the top of the assembly.
- 86309B**: The main body or housing of the component.
- 86391**: A bracket or mounting arm attached to the side of the main body.
- 82711-22270**: A circular flange or gasket used to seal the connection point.
- 90179-06184**: A small O-ring or seal located at the bottom of the main body.

The diagram shows the relative positions of these parts for assembly. A fuel line or hose is connected to the bottom of the main body, passing through the O-ring and flange.
