

## A line drawing of a vehicle's center console. The console features a gear shift lever on the left, a handbrake in the center, and a parking brake on the right. A label 'Ignition Switch' with a leader line points to a small, cylindrical switch located on the left side of the console, near the gear shift lever.

|                                                                                   | ON<br>(Ignition Key set)      |  |  |

### (Door Courtesy Switch /Continuity)

See Step 2 on page [BE-41](#).

If continuity is not as specified, replace the switch.

## 2. INSPECT RELAY

See seat belt warning relay on page [BE-41](#).
