LAND CRUISER (70 series)

OUTLINE OF NEW FEATURES

The following changes are made for the new Land Cruiser (70 series).

1. Exterior

- Tires with the 265/70R16LT size and overfenders have been adopted as optional equipment on the LX grade pick-up model for the G.C.C. countries.
- The design of the optional side stripes that are provided on the models for the G.C.C. and general countries have been changed to enhance its product appeal.

- The exterior colors indicated below have been added or discontinued.

Added Color No.	Added Color Name	Discontinued Color No.	Discontinued Color Name
3H4	Red Mica	3L5	Red
1B1	Warm Silver Metallic	577	Yellow

2. Interior

- A console box has been provided on the pick-up and long-body models with separate seats.
- Net type seat back pockets have been adopted on the front seat backs of the pick-up and long-body models with separate seats.

3. 1FZ-FE Engine

A TWC (Three Way Catalytic Converter) construction change or addition has been implemented for Australia and General countries (FZJ78L-RJMRK and FZJ79L-TJMRK for China and Peru) models to comply with the European STEP-II regulations.

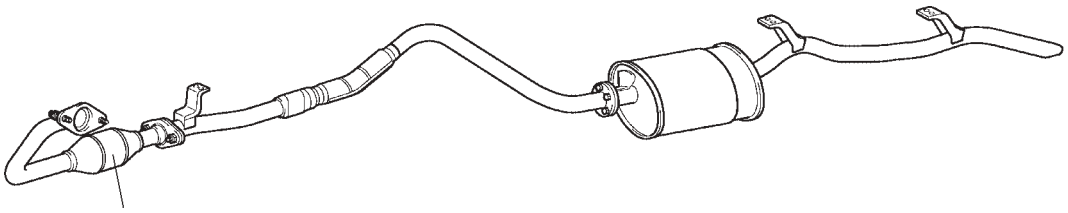

4. 1HZ Engine

Features indicated below have been adopted on the models for Australia and certain models for general countries (HZJ78L-RJMRS for China) to comply with the European STEP-II regulations.

- Emission Control System
- EGR System
- Injection Pump with TCV (Timing Control Valve) and BACS (Boost Altitude Compensation System)

5. 1HD-FTE Engine

An oxidation catalytic converter has been provided on the model for Australia to comply with the European STEP-II regulations. No change for the engine output or torque occurs in accordance with this change.

229LC03

6. Differential

Along with the optional setting of the 265/70R16LT size tires on the LX grade pick-up model for the G.C.C. countries, a front and rear differential with an optimized gear ratio (4.300→4.100) has been adopted as optional equipment.

7. Body

The dash insulator, which is already used on the 1FZ-FE engine model for China, has been adopted on the model for Australia and certain 1FZ-FE engine models for general countries (Peru). As a result, the heat insulation performance has been improved.

8. Combination Meter

- Along with the discontinuance of the air cleaner warning switch on the 1FZ-FE engine model, the air cleaner filter warning light has been discontinued.
- A speed warning buzzer has been provided on certain general country models (FZJ78L-RJMRK) as optional equipment. (Buzzer operates at 104 km/h ± 4 km/h.)
