THEFT DETERRENT SYSTEM

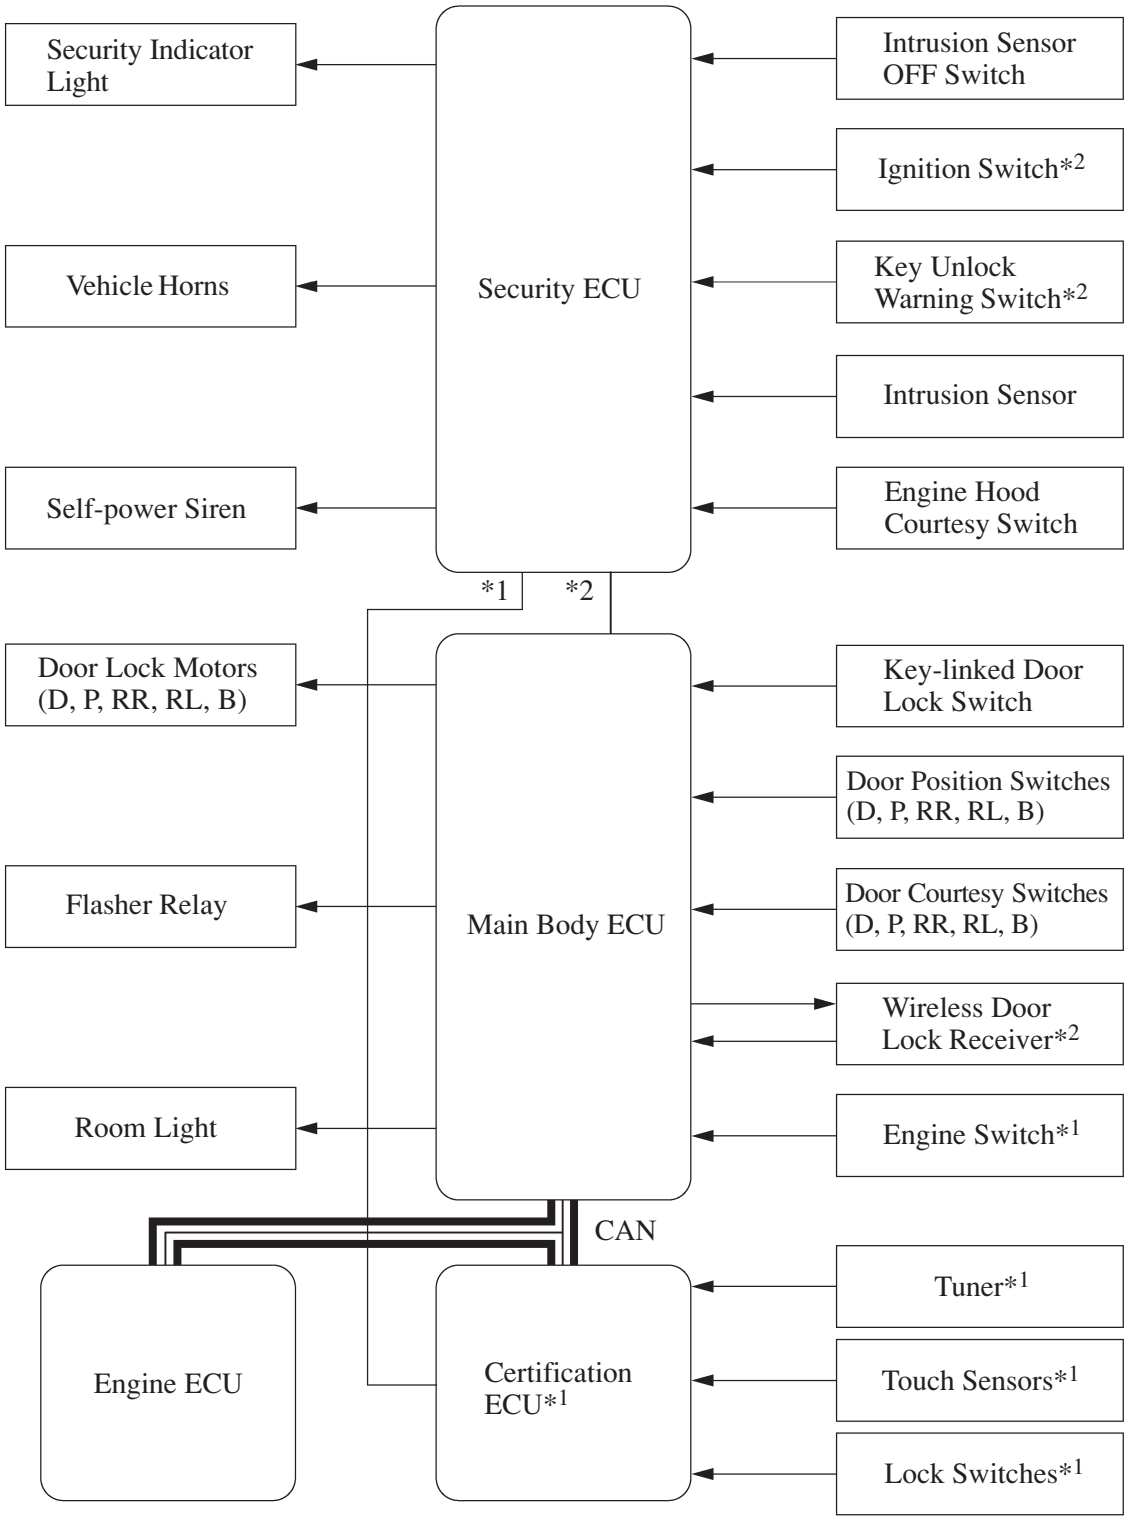

■ DESCRIPTION

- The theft deterrent system is available as optional equipment on the 2AD-FHV engine RHD model for Europe.
- The theft deterrent system uses the door lock control system and wireless door lock remote control system parts. The theft deterrent system will operate when somebody attempts to forcibly enter the vehicle, open the engine hood, or when the battery terminals are removed and reconnected.
- The control of this system is effected by the security ECU.
- The warning specifications of this system are listed below:

▶ Warning Specifications ◀
