EXTERIOR

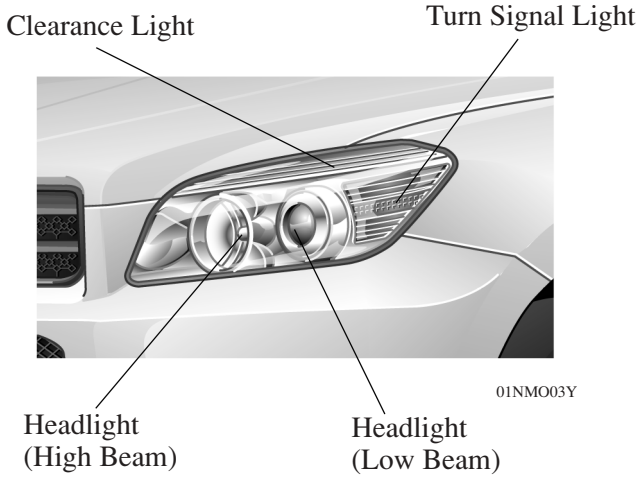

Front Design

- The front of the vehicle has been designed with a powerful look that emphasizes the large-diameter tires.
- The four-beam headlight that accommodates a projector-type low beam headlight, clearance light, and turn signal light is used.
- The combination of the multi-reflector type reflectors and the see-through outer lenses is used in the headlight create a crystal appearance. The 2AD-FHV engine models for Europe uses a smoke-painted extension in the headlight to achieve a sporty design.
- The radiator grille consists of a mesh portion and two grille bars to express powerfulness. The 2AD-FHV engine models for Europe uses plated grille bars to achieve an elegant design.
- The round front fog lights in the sides of the front bumper are available as optional equipment for the high grade.
