

Cruise Control <2AZ-FE, 1AZ-FE>

- * 1 : Australia
- * 2 : RHD Except Australia
- * 5 : Shielded

A diagram showing a 22-column grid with a building-like roof structure above it. The grid is divided into two rows of 11 columns each. The columns are numbered 1 through 22. The roof structure has a central peak and several smaller peaks and valleys, suggesting a complex layout or design.

1	2	3			4	5
6	7	8	9	10	11	12

The diagram shows a 32-pin connector layout. The pins are arranged in two rows of 16 pins each. The top row contains pins 2 through 11, and the bottom row contains pins 14 through 34. The pins are numbered as follows:

2	3	4	5	6	7	8	9	10	11
14	15	16	17	18	19	20	21	22	23
25	26	27	28	29	30	31	32	33	34

The diagram also includes labels 1, 12, 13, and 24, which are positioned around the central pin array.

1	2	3		4	5
6	7	8	9	10	11

1	2	3	4	5	6	7	8	9	10	11
12	13	14	15	16	17	18	19	20	21	22

A diagram of a 5-pin connector, likely a D-subminiature connector. The connector has a rectangular body with a central row of five pins. The pins are numbered 1 through 5 from left to right. Pin 1 is the leftmost pin, and pin 5 is the rightmost pin. The connector is shown in a perspective view, with the top and bottom of the body visible.

A diagram of a 9-pin D-sub connector. The pins are numbered 1 through 9. Pins 1, 2, 3, and 4 are in the top row. Pins 5, 6, 7, 8, and 9 are in the bottom row. Pin 7 is the central pin.

A black and white line drawing of a briefcase. Inside the briefcase is a rectangular frame containing a 2x5 grid of boxes. The boxes are numbered 1 through 10, starting from the top-left and ending at the bottom-right.

A diagram of a 12-point scale. It consists of a rectangular frame with two vertical bars on the left and right sides. Inside the frame, there are two rows of six boxes each. The top row contains the numbers 1 through 6, and the bottom row contains the numbers 7 through 12. The boxes are arranged in a grid-like fashion.
