5. Interior

- A power 8-way driver seat and a manual 4-way with fold flat front passenger seat are available for the sport package.
- Black fabric is provided for the seat upholstery of the sport package.

6. 3UR-FBE Engine

The 3UR-FBE engine is newly provided. For details of the 3UR-FBE engine, see page 5.

7. Brake Control System (4WD Models)

It is now possible to activate the VSC (Vehicle Stability Control) function in drive mode H4L.

○: Operates —: No Operates

Drive Mode		VSC OFF Switch	Brake Control VSC Function		VSC OFF Indicator Light	
			’09 Sequoia	’08 Sequoia	’09 Sequoia	’08 Sequoia
2WD		Normal Mode	○	○	—	—

		VSC OFF Mode	—	—	Light ON	Light ON
	L4L	Normal Mode	—	—	Light ON	Light ON
		VSC OFF Mode	—	—	Light ON	Light ON

8. Accessory Meter

The lighting intensity of the accessory meter decreases in the daytime on the ’08 Sequoia when the taillight switch is on. On the other hand, on the ’09 Sequoia, signals from the automatic light control sensor prevent the light intensity from decreasing, regardless of the light control switch position.
