Windshield and Door Glass

- An IR (Infrared Ray) reduction glass type windshield is standard equipment on the Limited and Platinum grades. The IR reduction glass absorbs infrared rays to help prevent the cabin temperature from rising.
- H.S.E.A. (High Solar Energy Absorbing) glass is provided. This glass improves occupant comfort by helping to prevent the temperature of the cabin from rising.

●: Standard OP: Option —: Not Equipped

Dynamic Laser Cruise Control System

- The dynamic laser cruise control system is available as optional equipment for the Limited and Platinum grades.
- The dynamic laser cruise control system recognizes the vehicle driven ahead and the driving lane. Thus, it can maintain an appropriate vehicle-to-vehicle distance while the vehicle is following the vehicle ahead.

Maintaining a set driving speed
(No vehicle ahead)

Maintaining a set time-gap,
or adjusting the speed to that
of the preceding vehicle to
maintain a set distance.
(With a vehicle ahead)
