Rear No. 1 Seat

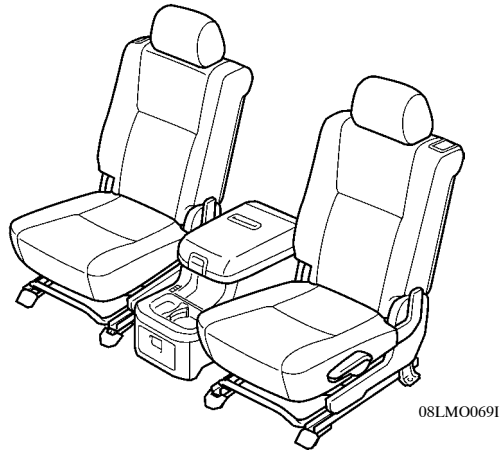

Separate seats are provided on the 7-passenger models, and a 40/20/40 split type seat is provided on the 8-passenger models.

1. 7-passenger Models

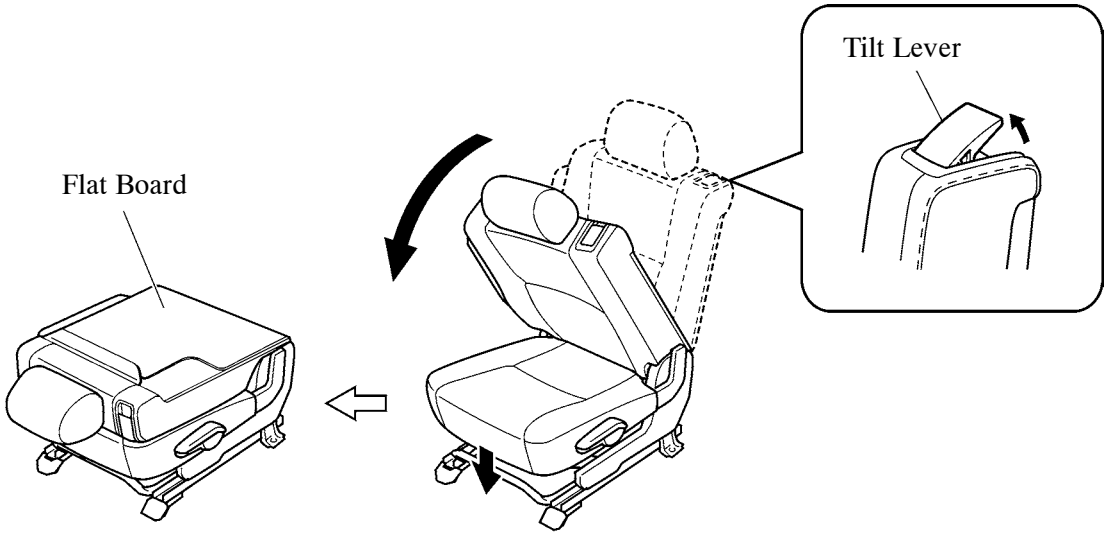

- Separate seats with a fold-down function are provided as standard equipment.
- The seat slide movement is 150 mm (5.9 in.) and the seat reclining angle is 26°.
- An armrest is provided as standard equipment on the SR5 and Limited grades. A console with an armrest between the seats is provided as standard equipment on the Platinum grade.
- When the seat is folded down, the upper box of the console can be opened forward to make the top surface flat. This provides a space for loading flat objects, such as boards.
- A flat board, which makes the luggage compartment flat when the rear No. 1 seat and rear No. 2 seat are folded down, is provided on the back of the rear No. 1 seat as standard equipment for the Limited and Platinum grades.
- A seat heater system is provided as standard equipment on the Platinum grade.
- A walk-in mechanism is provided in the outer seats for ease of in-and-out access.
