■ FUNCTION

The Bluetooth hands-free system has the following functions:

Function		Outline
Calling with a Bluetooth Phone	By Dial Pad	The user can call by inputting a telephone number.
	By Contacts	The user can call by using the contact data that has been transferred from the user's cellular phone. The user can register up to 2500 items in the contact list.
	By Home Screen	The user can make a call by using the widget on the home screen.
	By Call History*1	The user can call by selecting a telephone number from the call history.
	By Favorites*1	The user can call by using registered telephone numbers selected from the contacts, dialed numbers or received calls.
	By Voice Recognition (Dialing by Voice Tag)*1,*2	The user can call by giving a registered voice tag.
	By Point Of Interest (POI)*2	The user can call by operating a switch when "Call" is displayed on the navigation screen.
Receiving a Call using a Bluetooth Phone*1		When a call is received, the incoming call screen is displayed with a sound.
Talking on a Bluetooth Phone*1		While the user is talking on the phone, the talking screen is displayed.

Function		Outline
Registering and Selecting a Bluetooth Phone	Bluetooth Phone Registration	In order to use the hands-free function of a Bluetooth phone, it is necessary to register it in the audio head unit. Once a phone is registered, the hands-free function connects automatically. The user can register up to 5 Bluetooth phones.*4
	Bluetooth Phone Selection*1	When 2 or more registered Bluetooth phones are in the cabin, it is necessary to select which phone to use to prevent the lines from being crossed. Only the selected phone is available for use as a hands-free phone. The phone registered last is automatically selected.
	Bluetooth Information Confirmation and Editing	The user can set, change and initialize the information of the Bluetooth phone displayed on the screen.
	Deleting a Bluetooth Phone	The user can delete a registered Bluetooth phone from the audio head unit.

*1: Can be operated while driving.
*2: Models with navigation system
*3: PBAP non-compatible phone, or PBAP compatible phone with the automatic telephone number transfer function is set to off.
*4: The maximum number of Bluetooth devices that can be registered (including Bluetooth phones and Bluetooth audio players)
