NEW FEATURES

■ TIRE PRESSURE WARNING SYSTEM

1. General

- The direct-sensing type tire pressure warning system with the tire pressure warning reset switch is used as standard equipment on all ’06 Toyota Tacoma models.
- The tire pressure warning system is already in use on the ’04 4Runner and ’05 Toyota Tundra. For details on the basic construction and operation of the tire pressure warning system, see the ’04 4Runner NCF (Pub. No. NCF257U). For details on the tire pressure warning reset switch, see the ’05 Toyota Tundra NCF (Pub. No. NCF275U).
