BLUETOOTH HANDS-FREE SYSTEM

■ DESCRIPTION

The Bluetooth hands-free system allows the driver to make or receive a call without taking their hands off the steering wheel when the system is linked with a Bluetooth-compatible cellular phone.

- The Bluetooth hands-free system is installed on both the audio head unit in the premium audio system and radio and player with display in the navigation with AV system.

— REFERENCE —

001SI50Y

Bluetooth is a trademark owned by Bluetooth SIG (Special Interest Group). Bluetooth is a high-speed wireless data communication function that uses the 2.4 GHz frequency band prescribed by the Bluetooth SIG, with communication at a speed of 1 Mbps.
