

Back Door Opener (w/ Entry & Start System), Engine Immobiliser System (w/ Entry & Start System), Entry & Start System, Starting (w/ Entry & Start System), Steering Lock (w/ Entry & Start System) and Wireless Door Lock Control (w/ Entry & Start System)

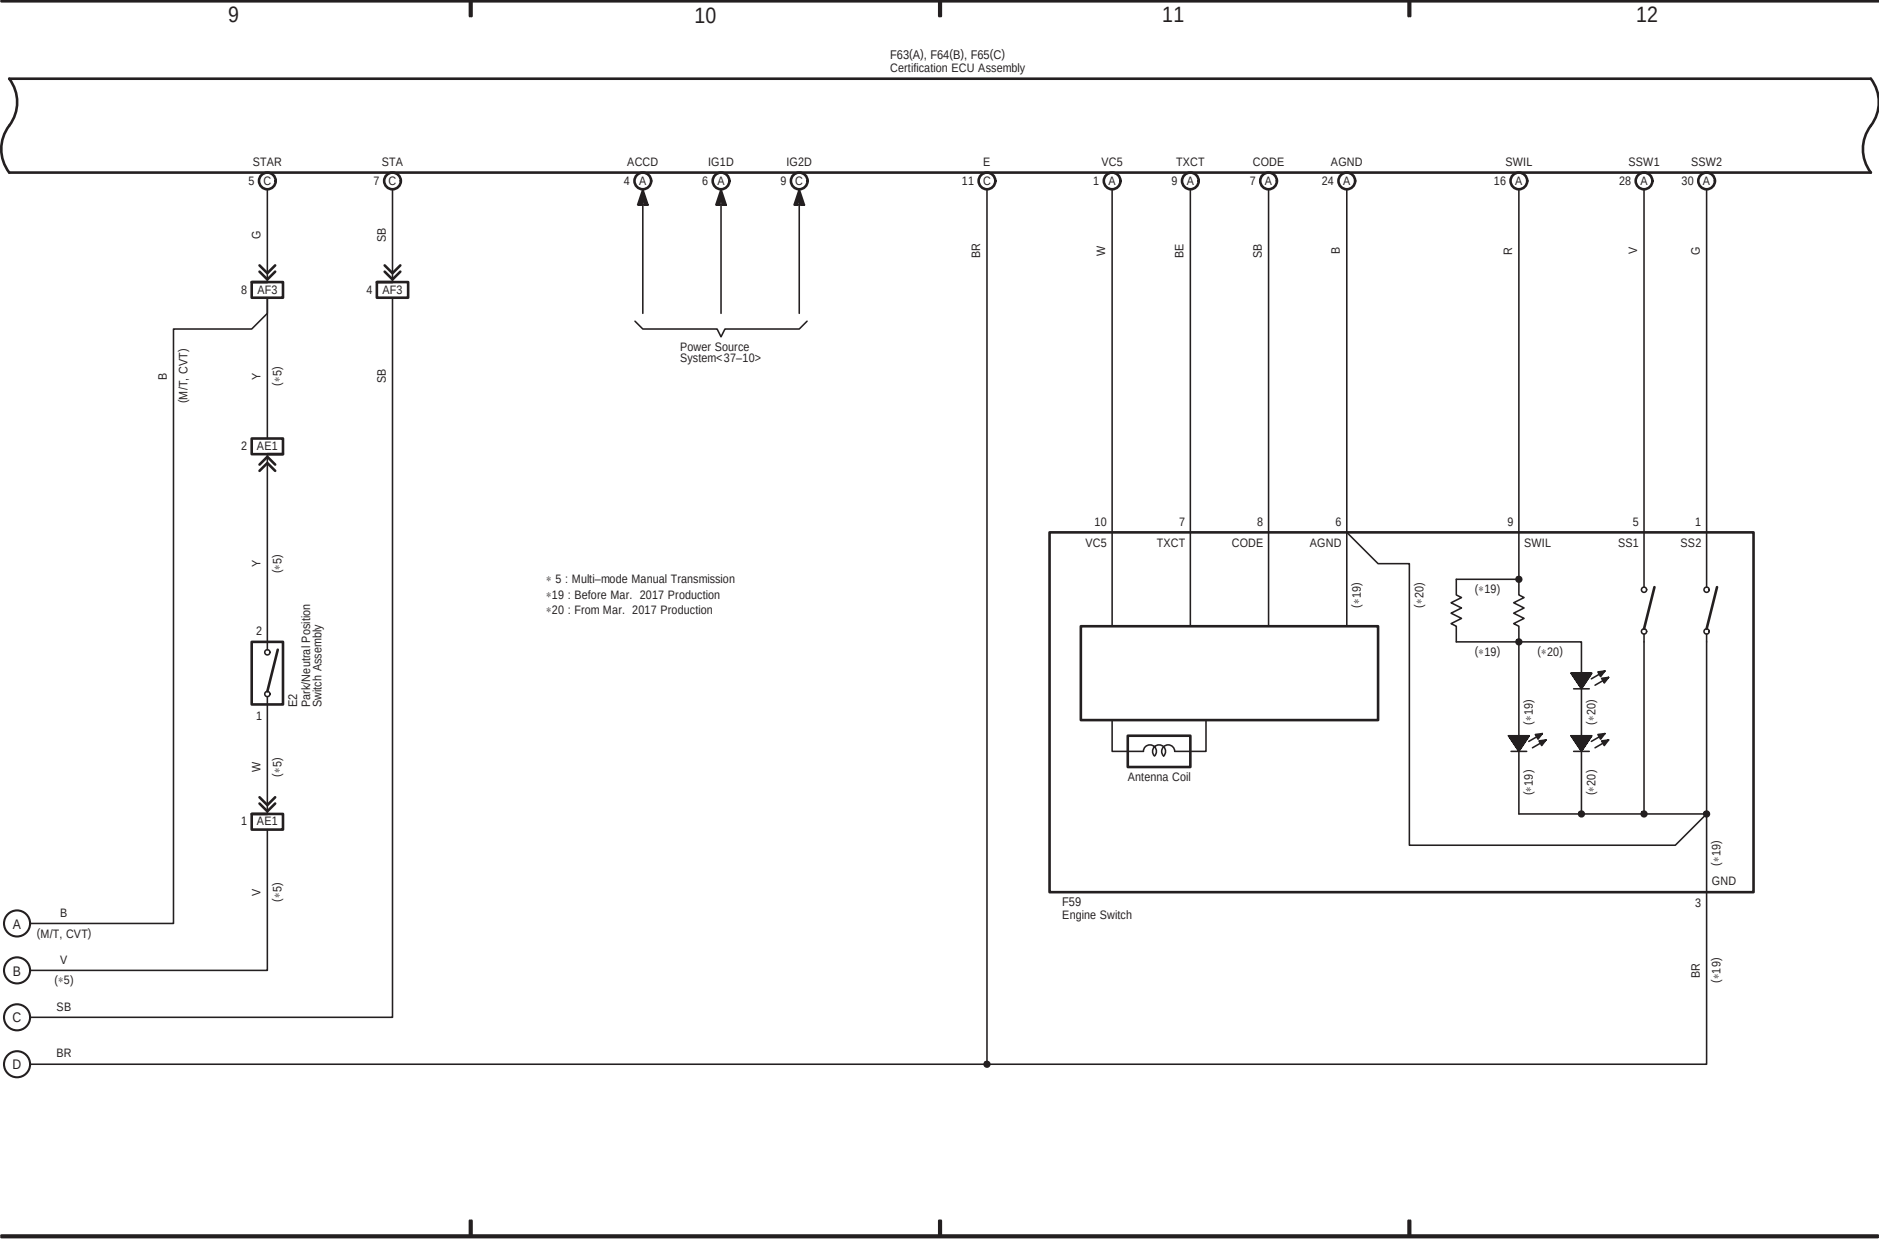

The diagram illustrates the electrical system for the 2008 Toyota Camry (XLE), focusing on the steering lock actuator assembly (F61) and the network gateway ECU (F63). The system is powered by a battery (BAT) and includes various fuses (AF3, AF4, AF5) and relays (R). The diagram shows the connection of the steering lock actuator assembly (F61) to the vehicle's body ground (GND) and the power windows (W-B). It also shows the connection of the network gateway ECU (F63) to the vehicle's body ground (GND) and the power windows (W-B). The diagram includes a legend for the vehicle's transmission type (M/T, CVT) and the power window type (W-B).

Legend:

- * 5 : Multi-mode Manual Transmission
- * 23 : 2ZR-FE
- * 24 : Except *23
