

Wiring diagram for a 2007 Ford Focus SE 2.0L, showing the electrical system for the windshield wiper and washer. The diagram is divided into four main sections: 1. Wiper Motor Assembly, 2. Wiper Switch Assembly, 3. Wiper Relay Assembly, and 4. Washer Motor Assembly.

Section 1: Wiper Motor Assembly

- 20A WIPER fuse (F52) is connected to the battery (IG) and the wiper motor (A10).
- The wiper motor is connected to the battery (IG) and the wiper motor (A10).
- The wiper motor is connected to the battery (IG) and the wiper motor (A10).

Section 2: Wiper Switch Assembly

- Front Wiper Switch (F9(A), F10(B)) is connected to the battery (IG) and the wiper motor (A10).
- The wiper switch is connected to the battery (IG) and the wiper motor (A10).
- The wiper switch is connected to the battery (IG) and the wiper motor (A10).

Section 3: Wiper Relay Assembly

- Wiper Relay (F52) is connected to the battery (IG) and the wiper motor (A10).
- The wiper relay is connected to the battery (IG) and the wiper motor (A10).
- The wiper relay is connected to the battery (IG) and the wiper motor (A10).

Section 4: Washer Motor Assembly

- 15A WASHER fuse (F53) is connected to the battery (IG) and the washer motor (A11).
- The washer motor is connected to the battery (IG) and the washer motor (A11).
- The washer motor is connected to the battery (IG) and the washer motor (A11).
