Side Design

1. Hatchback Model

- The side design with the black center pillar gives a smooth and sporty impression.
- The rocker protectors are available as optional equipment on the Europe models.
- The front and rear bumpers on the G.C.C. countries models have been designed longer than other models.

3-door Hatchback Model

For G.C.C. Countries Model

For G.C.C. Countries Model

5-door Hatchback Model

2. Sedan Model

- The relaxed cabin that expresses the spacious interior realizes a side design with a lively proportion in spite of its compact size.
- The combination of continuous convex and concave surfaces on the door realizes an accentuated, powerful surface shape.
