Instrument Panel

1. Hatchback Model

- The instrument panel has a simple monotone color, achieving a cool and sporty design. It has been shaped to achieve a clean and light image with a spacious feel in the cabin.
- An impact-making center cluster panel is used to give a cutting-edge feel and provide comfort for the legs.
- A silver coated center cluster panel is provided as standard equipment on all models.
- Shut-fin type side registers are used. Their surface becomes flush when they are closed, thus achieving a simple and streamlined design.
