NEW FEATURES

EXTERIOR

■FRONT DESIGN

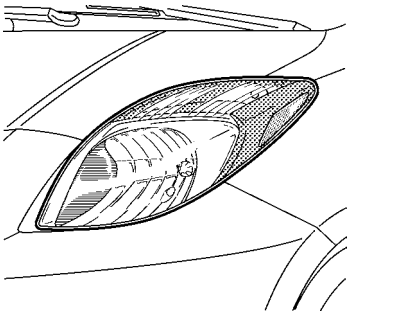

The TS grade features the following front design characteristics.

- The front design has been made sporty through the use of headlights containing silver frosted inner lenses and a front bumper with a round fog light at each side.
- The radiator grille uses a honeycomb pattern. Combined with a similarly designed under grille, it gives a powerful impression.
- Front fog lights are provided as standard equipment.

■REAR DESIGN

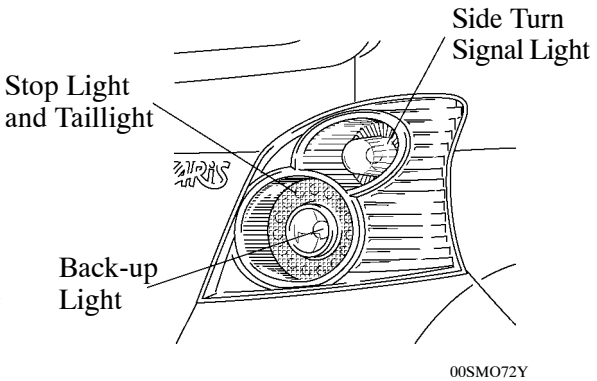

The TS grade features the following rear design characteristics.

- The rear design has been made sporty through the use of a rear bumper fitted with a rear fog light and reflex reflectors and a diffuser on the tail pipe.
- The rear combination lights consist of stop and taillights with LEDs (Light Emitting Diodes) that have crystal-like appearance.
- A rear fog light is provided as standard equipment on the driver side.
