YARIS

OUTLINE OF NEW FEATURES

The following changes are made for the new Yaris.

1. Model Line-up

- LHD models produced by TMC, on which the 1KR-FE engine with 5-speed manual transaxle was provided, have been discontinued.
- Special edition models for Peru, Guatemala, Panama, Aruba, Curacao, Honduras and Bolivia has been added. On this model, the interior decoration have been changed, and aluminum wheels and optitron display type combination meter have been provided as standard.

2. Interior

On special edition models, interior parts have been plated to make the interior classy. For details, see page 5.

3. 1KR-FE Engine

In order to comply with the EURO 5 regulations, the ECM software and the internal coating material of the Three-way Catalytic converter (TWC) have been optimized.

4. 1NR-FE Engine

In order to comply with the EURO 5 regulations, the ECM software and the internal coating material of the TWC have been optimized and the shape of the exhaust manifold has been changed. For details, see page 6.

5. 1ND-TV Engine

In order to comply with the EURO 5 regulations, the pistons, injectors, EGR cooler and ECM software have been changed. For details, see page 11.
